DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Hasegawa et al. (JP 2002-331282 A).

With respect to claims 1 and 2, Hasegawa et al. ('282 A) anticipates (abstract) the claimed method for cleaning up heavy metal (e.g. lead, paragraph [0016], machine translation)-contaminated soil comprising growing a plant belonging to the family of Chenopodiaceae by transplanting a seedling (paragraph [0018], machine translation) on the contaminated soil to allow the plant to absorb and accumulate the contaminant before harvesting the plant.
